

IPC-7711B/7721B TRAINING PROGRAM MATERIAL LIST

1. There are separate CIT kits for the CIS certification and CIS recertification courses.
2. CIT and CIS Certificates are available in both letter size (8 ½ x 11 for North America) and A4 size (rest of the world). There are no changes in the CIT certificates for Revision B training. The CIS certificates were updated to reflect that all gull-wing lead training is now in a single module (5) and J-lead training is the only termination style in Module 6. In most cases either the old or new modules can still be used. Contact certification@ipc.org if you have questions.

Item	Code	US\$ Price (Quantity Discounts Available)	
		IPC Member	IPC Nonmember
CIT Certificate Letter Size (8 ½ x 11")	RWKMI-CRT	25	30
CIT Certificate A4 Size	RWKMI-CRT4	25	30
CIS Certificate Letter Size (8 ½ x 11")	RWK-OP-CERT	25	30
CIS Certificate A4 Size	RWK-OP-CERT4	25	30

3. If CITs wish to upgrade to the new Revision B CIS training before their next recertification cycle they may order a special kit that does not include a certificate.

All CIT Certification kits include one each of the following items:

7711/21B Rework, Modification and Repair of Electronic Assemblies

One printed copy of the CIT SURVIVAL GUIDE

One printed copy of the CIS Certification Program Instructor Guide

One CD with display visuals, forms for testing and workmanship, and other support files.

One set of 12 CIS Open Book test booklets and one instructor key

Either a letter size or A4 size certificate (sold to Training Centers only, no certificate if sold directly to a CIT)

The CIT Recertification kits have the same contents except that the Instructor Guide and CD are for the recertification course.

Item FOR INITIAL CERTIFICATION	Code	US\$ Price (Quantity Discounts Available)
