

## J-STD-001E CIT Recert Training Material Updates

After publication of the training material several instructors have suggested the following issues. Users are always encouraged to provide course recommendations.

| Page/Slide                       | Reference | Description   |
|----------------------------------|-----------|---|
| Recert<br>Visuals<br>Slide S3-10 | 4.6       | <p>It is acceptable to copy the PPT files from the CD to run directly from your computer (this usually provides better performance). On 001E CIT Recert visuals slide S3-10 add the word “taken” after the phrase “<b>shall be</b>” so the bullet will read:</p> <ul style="list-style-type: none"> <li>Protective measures <b>shall be taken</b> to minimize component heating or to prevent thermal shock on components identified as heat sensitive</li> </ul> |

|                    | Section                              | Description   |
|--------------------|--------------------------------------|---|
| Progress<br>Review | Surface<br>Mounting of<br>Components | <p>Error in the printed IG for Question 43. The correct answer is “<b>A</b>” instead of “B”. Please mark this change in your Instructor Guide.</p> <p><b>A, Page 30, Clause 7.5.7 Table 7-7</b></p> |
