

33441 Semiconductor and Other Electronic Component Manufacturing

This industry comprises establishments primarily engaged in manufacturing semiconductors and other components for electronic applications. Examples of products made by these establishments are capacitors, resistors, microprocessors, bare and loaded printed circuit boards, electron tubes, electronic connectors, and computer modems.

334412 Bare Printed Circuit Board Manufacturing

This U.S. industry comprises establishments primarily engaged in manufacturing bare (i.e., rigid or flexible) printed circuit boards without mounted electronic components. These establishments print, perforate, plate, screen, etch, or photoprint interconnecting pathways for electric current on laminates.

NAICS	SIC	Corresponding Index Entries
334412	3672	Circuit boards, printed, bare, manufacturing
334412	3672	Flexible wiring boards, bare, manufacturing
334412	3672	Printed circuit boards, bare, manufacturing

334418 Printed Circuit Assembly (Electronic Assembly) Manufacturing

This U.S. industry comprises establishments primarily engaged in loading components onto printed circuit boards or who manufacture and ship loaded printed circuit boards. Also known as printed circuit assemblies, electronics assemblies, or modules, these products are printed circuit boards that have some or all of the semiconductor and electronic components inserted or mounted and are inputs to a wide variety of electronic systems and devices.

NAICS	SIC	Corresponding Index Entries
334418	3679	Loaded computer boards manufacturing
334418	3679	Loading printed circuit boards
334418	3679	Memory boards manufacturing
334418	3679	Peripheral controller boards manufacturing
334418	36M	Personal computer modems manufacturing
334418	3679	Printed circuit assemblies manufacturing
334418	3679	Printed circuit boards loading
