

Table of Contents

	Page No.
Executive Summary	1
1. Introduction	6
2. Representative Systems	9
2.1 Sensors and Point Controls	10
2.2 Automation and Control Equipment	14
2.3 Single-Board Computers and Modules	22
2.4 Power Panels	24
2.5 Modular Motor and Power Drives	27
2.6 Conclusion	28
3. Power Generation Industries	29
3.1 Market Environment	32
3.2 Special Design Considerations	35
4. Power Distribution, Delivery and Switch Gear	36
4.1 Market Environment	39
4.2 Special Design Considerations	40
5. Railway Systems	41
5.1 Market Environment	43
5.2 Special Design Considerations	43
6. Traffic Systems	44
6.1 Market Environment	46
6.2 Special Design Considerations	47
7. Marine Propulsion and Electronics	48
7.1 Market Environment	50
7.2 Special Design Considerations	50
8. Heavy and Light Industrial Process and Manufacturing Equipment	51
8.1 Market Environment	55
8.2 Special Design Considerations	55
9. Materials Handling	56
9.1 Market Environment	58
10. Instrumentation	59
10.1 Market Environment	61
10.2 Special Considerations	62

	Page No.
11. Commercial Building Controls: HVAC, Lighting, Fire, and Security Systems	63
11.1 Market Environment	65
11.2 Special Considerations	66
12. Elevator and Escalators	67
12.1 Market Environment	68
13. Self-Service Equipment	69
13.1 Market Environment	70
13.2 Special Considerations	71
14. Electronic Signage and Displays	72
14.1 Market Environment	74
14.2 Special Considerations	74
15. Commercial Appliance Controls	76
15.1 Market Environment	77
