

IPC Flexible Circuits – HDI Forum

October 17–19, 2017 • Minneapolis

This three-day event includes:

- Tutorials at the basic-intermediate level Day 1
- Technical Conference with advanced-level presentations Day 2 and 3
- Tabletop exhibits provide additional technical education
- Networking reception, luncheon, and breaks

The agenda for this important event features major industry players. Senior technologists from these organizations will share new research, case studies, and their outlook for the future.

Agenda is in development.

For complete information about presentation titles and speakers, check after April 1 at www.ipc.org/Events.
