

Holy Stone Holdings(Singapore) Pte Ltd

Holystone has earned its reputation as an innovative leader in the design and manufacturing of quality Multilayer Ceramic Capacitors.

Holystone was founded in 1981 and is headquartered in Taipei. It is listed in the Taiwan Stock Exchange, with factories in Taiwan. With the support of its advanced materials laboratory in Japan, Holystone produces a broad line of standard and specialized products. Our modern factories utilize the latest state-of-the-art equipment and technology. The factories are certified ISO-14000, ISO-9001, QS9000, AECQ2000, UL/TUV safety certification and TS16949.

Our products include:

- Series of MLCC Capacitors and Application
- High voltage - Power Circuits (DC/DC inverter)
- High capacitance NPO - ADSL/XDSL (replacement of film capacitors)
- High capacitance X7R - Input/Output filter (DC-DC converters)
- High Capacitance MLCC - smoothing/decoupling circuits
- Safety SMD (X1Y1/X1Y2/X2) – isolation/protection circuit
- High CV - switch mode power supply
- Long side termination/large case - Power supply, input/output filter, DC/DC converter
- Automotive grade - safety equipment/custom application
- Stacked caps
