

Leadership and significant contributions to IPC and the electronics manufacturing industry

In recognition of leadership and significant contributions of time and talent to IPC and the electronics manufacturing industry, IPC volunteers were presented with the IPC President's Award at IPC APEX EXPO in San Diego, California on January 24, 2023. One of the Recipient was Savita Ganjigatti, Sienna ECAD Technologies Pvt. Ltd.

Savita Ganjigatti has been involved in the industry for more than 30 years and served as a steering committee member for the IPC 2022 Global Design Competition, representing the Asia Pacific region. A program panel member of the IPC Global Thought Leadership Program, she also serves on the IPC India Technical Advisory Committee, was instrumental in starting the PCB competition in that region and conducted many design contests. Ganjigatti was a critical in the development of the Women in India Electronics group, paper presentations, and standards reviews facilitated by IPC India. She helped to implement "PCB Design Engineering" as an elective at several Indian universities, and she is actively involved in skill development initiatives of the Indian central government.

"The leadership and expertise of Savita sets the standard for building electronics better," said John W. Mitchell, IPC president and CEO. "By presenting her with IPC President's Awards, we are showing our appreciation for her significant contributions to IPC and the global electronics manufacturing industry."

Ms. Savita Ganjigatti
Vice President (Engineering)
SIENNA ECAD Technologies Private Limited
Bengaluru, India
