

During COVID situation **IPC India** 'Instructor Led Virtual Training' has become very popular not only for Members in India, but also serving countries like Sri Lanka, Saudi Arabia & United Arab Emirates.

NIMR Automotive located at Abu Dhabi, UAE has been interacting with IPC India for last 4 years. NIMR is manufacturing combat-proven light and medium-weight wheeled military vehicles.

NIMR Team adheres to the most demanding international standards due to diverse range of user requirements. Their attention to skill training and importance to production quality have gained customer confidence. Recognised for its field-tested versatility, ruggedness and performance, NIMR vehicles are manufactured at state-of-the-art facilities in compliance with defence standards.

IPC India Virtual Training Supports Member @UAE

The two key IPC certification programs that NIMR team are engaged with India office are IPC-A-610 & IPC/WHMA-A-620 Endorsements

IPC-A-610 (Acceptability of Electronic Assembly) is the most widely used inspection standard in the electronics industry and the source for end-product acceptance criteria for consumer and high reliability printed circuit assemblies.

Alin Fifor, Senior Supplier Quality Assurance Engineer, Quality of NIMR completed IPC-A-610 Certification during April 5 -8, 2021. Mr. B. J. Srinivas, Certified IPC Trainer involved with IPC India since 2013 and with 34+ years of industry experience conducted the IPC 610 course

Alin mentioned after the course

"The overall experience with the IPC 610 training is positive in which I had obtained very useful information that will help me do my job much better from now onwards. By reading the standard only is not sufficient, in order to fully understand a requirement, we not only need the wisdom of the trainer; but also to qualify & test the knowledge through examination"
